

Hello!

I hope you don't mind getting your Christmas present a little early. We're very busy here at the North Pole, so I've had to put the reindeer to work earlier than expected!

I know you're going to love your Springfree Trampoline... it's the coolest present I deliver! And getting it a little early, just means you can get more bouncing practice in before Christmas morning. Merry (early) Christmas and happy jumping!

Love

Santa
